

Recommendation Letter

To Whom It May Concern,

I am writing to recommend Mr. Fahad Alyami for admission to a Master's program in Mining Engineering. I had the opportunity to supervise him during his cooperative training, and I was impressed by his commitment, technical understanding, and professionalism.

Fahad demonstrated strong analytical and problem-solving skills in mining operations and showed the ability to apply theoretical knowledge in practical industrial environments. He was eager to learn, actively participated in discussions, and consistently worked to improve his technical abilities.

He also possesses excellent teamwork and communication skills and performs effectively under pressure in industrial settings. His dedication and motivation make him highly capable of succeeding in advanced academic studies and contributing to the mining sector.

I am confident that Fahad will be a valuable addition to your institution and will continue to achieve academic and professional success.

Sincerely,
Dr. Ahmed Al-Qahtani
Mining Engineering Supervisor
