

Personal Statement

I am Fahad Alyami, a graduate with a Bachelor's degree in Mining Engineering. I am applying for a Master's program to further develop my technical knowledge and contribute to the growth of the mining sector in Saudi Arabia.

During my academic journey, I developed strong analytical and problem-solving skills, particularly in mining operations, resource management, and industrial safety. These experiences motivated me to pursue advanced studies in a field that supports sustainable industrial development.

I aim to join University of Queensland due to its strong academic reputation and excellence in mining and resources engineering. I am committed to contributing to the mining and industrial sector through advanced knowledge and practical expertise.
