

Academic Progress Reports – Master’s in Industrial Systems Engineering

Student: Fatimah Alghamdi Medicine

University: European University – United States

Report 1: Orientation and Academic Planning

At the beginning of the program, Fatimah focuses on understanding the structure of the Master’s degree in Industrial Systems Engineering. She attends orientation sessions, meets her academic advisor, and reviews course requirements and specialization tracks. A preliminary academic plan is developed, including selected courses and expected learning outcomes. The report evaluates her readiness and clarity of academic goals.

**Sincerely,
